PUBLIC MEETING & WORKSHOPS

Workshop Notice

October 2, 2000
10 am – 4 pm

Hiram Johnson State Building
455 Golden Gate Avenue, Training Rooms 2 and 3
San Francisco

The California Public Utilities Commission's Division of Strategic Planning will conduct a workshop to help write new rules for the **Deaf and Disabled Telecommunications Program (DDTP)**.

Background: The California Legislature passed Senate Bill 669 in 1999 that:

- 1) Creates the DDTP Administrative Committee as an advisory board for the CPUC to help develop, implement, and administer programs providing telecommunications services and equipment to the deaf or disabled, and
- 2) Requires funds for the DDTP be held in the State Treasury (instead of a bank trust fund as is currently done).

This proceeding, known as Rulemaking 00-05-001, is intended to develop procedures to carry out the requirements of SB 669. This rulemaking is aimed at:

Ensuring that the DDTP has adequate administrative authority and resources to "carry out the programs pursuant to the commission's direction, control, and approval" (Public Utilities (P.U.) Code Section 278(a)(1)),

Reviewing the DDTPAC's structure to ensure that it achieves "appropriate representation by the consumers of telecommunications services for the deaf and disabled," as SB 669 requires (P.U. Code Section 278 (a) (2)), and,

Implementing the changes in financial administration that SB 669 requires.

Ground Rules for this Workshop:

The atmosphere at the workshop will be informal. However, a court reporter will record the Workshop and a transcript will be available at a later time. Only if needed will the moderator impose time limits for speakers and other control measures.

- 2) The workshop will explore the issues raised in the Order Instituting Rulemaking (OIR), (see <ftp://ftp.cpuc.ca.gov/gopher-data/agenda/r0005001.pdf>), issues presented by the assigned ALJ, and other specific topics raised by participants. The workshop participants are asked to explore and evaluate all the items on the agenda, not merely iterate or defend a position.

- 3) The CPUC invites anyone interested in this subject to comment in person at this workshop. If you cannot attend, write or e-mail your views to the Commission's Public Advisor:

California Public Utilities Commission

Public Advisor's Office

505 Van Ness Avenue, 5th Floor

San Francisco, CA 94102

public.advisor@cpuc.ca.gov

Please include R.00-05-001 in your mail or e-mail.

The hearing location is accessible to persons with disabilities and will have sign language interpreters, real-time captioners, and voicers available. Please call the Commission's Public Advisor at least five working days before the workshop if you need to request other

reasonable accommodation: 415-703-2074 (V), 415-703-2032 (TTY) or 800-229-6846 (TTY)

4) Mark Vandervelden of the Division of Strategic Planning will chair and moderate this workshop.

5) Mr. Vandervelden will prepare and file a Workshop Report with the Commission presenting the views of workshop participants. The Commission may use this report as a basis for the discussion of SB 669 implementation issues. For more information contact Mark Vandervelden at (415)703-2329 or by e-mail: mav@cpuc.ca.gov.

9/18/00	I98-03-013	Order Instituting Investigation on the Commission's own motion, into whether existing standards and policies of the Commission regarding drinking water quality adequately protect the public health and safety with respect to contaminants such as Volatile Organic Compounds, Perchlorate, MTBEs, and whether those standards and policies are being uniformly complied with by Commission regulated utilities.
---------	------------	--

Summary: On September 13, 2000, Evelyn Kahl Elsesser, Counsel for Aerojet-General Corporation, Huffy Corporation, and Wynn Oil Company ("Responding Parties"), met with Geoffrey Dryvynsyde, advisor to Cmmr. Lynch, in San Francisco. Also present was Christine Jun, counsel to the Responding Parties. Written materials (attached to the notice) were used. The Responding Parties urged the Commission to continue to

exercise and retain its jurisdiction over the delivery of safe and potable drinking water by examining and making conclusions, if any, on a complete historical record of compliance data, or else risk ceding its jurisdiction to the courts. Jun explained that the record of testing and monitoring data of the regulated utilities is complete for the period after the institution of a maximum contaminant level ("MCL") for any particular contaminant, and therefore, the Commission can conclude that the water served by regulated utilities was not "harmful or dangerous to health." Jun also stated that there are time periods prior to the establishment of MCLs for which testing data is not complete on the record. Jun recommended the Department of Health Services as a supplemental source of compliance data. Elsesser also explained that the Commission would benefit from an examination of past testing and monitoring standards for the purposes of determining the adequacy of standard-setting on a prospective basis.

Summary: On September 13, 2000, Evelyn Kahl Elsesser, Counsel for Aerojet-General Corporation, Huffly Corporation, and Wynn Oil Company ("Responding Parties"), met with William Julian, advisor to Cmmr. Wood, in San Francisco. Also present was Christine Jun, counsel to the Responding Parties. The Responding Parties expressed their views on the deficiencies of the record in this proceeding and of the conclusions drawn in the proposed Final Opinion of Cmmr. Duque. The Responding Parties urged the Commission to continue to exercise and retain its jurisdiction over the delivery of safe and potable drinking water by examining and making conclusions, if any, on a complete historical record of compliance data, or else risk ceding its jurisdiction to the courts. Elsesser explained that the record of utility compliance data is deficient for those periods prior to the establishment of maximum contaminant levels ("MCL"). The Responding Parties stated they do not dispute the Proposed Final Decision's finding that the regulated water utilities are in satisfactory compliance with water quality standards after the establishment of MCL. The Responding Parties stated it was not clear that the utilities submitted all water quality testing data over the 25-year review period on to the record, and the Commission should continue its investigation into the quality of water served by regulated utilities over the 25-year review period.

Summary: On September 18, 2000, Michael Romano, Attorney for Level 3 Communications (Level 3) met with Cmmr. Duque in San Francisco. Also present were: Lynne McGhee, advisor to Cmmr. Duque, and Christine Griffith of Beveridge & Diamond, P.C., attorneys for Level 3. Written material (attached to the notice) was used.

Level 3 representatives argued that the final arbitrator's report (FAR) erred with regard to the issue of compensation for switching and transfer calls to "virtual NXX customers". Level 3 explained that the FAR erroneously relies on decision D99-09-029 and decision D00-08-011 and that the result in the FAR contradicts the reasoning used in considering the parties' positions. Level 3 representatives stated further that the result in the FAR is contrary to federal law.
